What you need to bring to Surrey Lake Fishing Resort:

- Bedding, Linens
- Towels
- Food
- An Axe
- A Propane Lantern
- Fishing Gear

Surrey Lake is one of the many "High Country" lakes that dot the Nicola Plateau. At an elevation of more than 1400 metres (4500 feet), Surrey Lake enjoys good fishing throughout the summer.

**Kamloops, British Columbia**

*Prepare yourself to experience the season of your choice in the "High Country". Winters can be extremely cold, while the summer can rival the tropics. It is best to come prepared - warm clothes, rain gear, sun screen and insect repellent are the basics.*

*Ten housekeeping cabins, each with its own charm and character, provide you with a relaxed rustic shelter. Each is equipped with all the basics of country living. A wood stove, dishes, utensils and cook ware. Some have propane stoves and cold running water. All have comfortable beds, tables and chairs. Bring your own sleeping bags, towels, and food. Electric light is supplied to each cabin in the evening till 10 pm. Coal oil lamps are supplied, but your own gas lamp may be of benefit.*

*A modern wash house takes the edge off your summer adventure, with hot showers, and flush toilets. For those of you who insist on the complete experience, outhouses are provided.*

*The Nicola Plateau is home to Surrey Lake. Exit 336 on the Coquihalla (Hwy 5), is just a little more than three hours northeast of Vancouver, or 25 minutes south of Kamloops. Head west 7 kilometres towards Logan Lake, then turn left onto the Surrey Lake Forest Service Road. Another 10 km through the best scenery the plateau offers, and you will have arrived at the resort.*

*Surrey Lake Fishing Resort is fortunate to share its neighbourhood with many species of wildlife. Moose, bear, and deer are just a few.*

*Surrey Lake Fishing Resort has been around since 1931. It has for years, offered its guests an adventure, a wilderness experience. Even today, with the Coquihalla making your journey somewhat easier, Surrey Lake still maintains its wilderness setting. Four lakes are within reach of the resort, but most are four-wheel drive access. Wild Kamloops trout abound in all these lakes, just waiting to be tempted by your lure.*

**Enjoy your stay.**
